2nd December 2008

Warehousing of cable.

Dear George

This letter is following up on our (TELUS) verbal notification of Thursday 20<sup>th</sup> November 2008 informing you that TELUS intends to outsource the storage and administrative functions associated with the warehousing of cable.

Our intent is to continue to use internal resources and facilities when they are available to meet our business needs, but due to our requirement to respond quickly to peak or unplanned work that arises from new priorities we need to contract this work out.

Kind regards

Tony Kelly  
Director, Warehouse & Distribution (Supply Operations)
